Aug 2008

Hello Jonathan!

Good Day! It has been a wonderful one when we receive a package ... especially one with so many great things. Everything, and I mean everything, will be used.

Please tell anyone that sends these packages that they are true saints! It takes someone special to take the time, effort, and money (and Love!) to send packages.

Just a little about me. I am a reservist from Chattanooga, TN. This is the second time I have been over here. The first time, 2003-4, I commanded a company of 124 soldiers in a trucking company. We had 12 months in theater running missions all over the place in Iraq.

Now, I am with the US Army Central command. I help work with some technology the Generals use; videoing, phones, etc. It can be exciting around here sometimes but mostly it's groundhog day. The soldiers I hang around with and I never go anywhere. It's like the same day ... over and over.

We do get a chance to go to the swimming pool once a week, or workout; but, we mostly have to work 6 ½ days a week, 13-15 hours a day.

Morale is good! We believe in what we are doing. And we sincerely and deeply appreciate all the support!

You guys are the Best! And we want to make you proud!

Best Regards and a Salute to you and yours,

Major R. "Burt" Fisher
