

Mr GRIES,

I want to thank you and the folks at ThankYouSoldier.com. We received the package the other day. It definitely came at the right time. Our deck of cards had gotten pretty worn out. Also the Crackers were a great snack.

A bit about us. We are a 4 man team. We are assisting the Iraqi Govt. Trying to help them with power grid set-up, water treatment and distribution, raising the Employment levels etc. The first time I was here was 2004 we basically took credit for all we did. Today we are the silent partner in the corporation. We give the money, do the behind the scenes work but leave when its finished. Hardest part is teaching them Sustainment.

How to keep the Electrical Substation running is not a concept they understand. They are learning slowly.

Well again Thank you for the Package we really do appreciate people like you remembering we are here.
